By date and format

Example: this number is Ezencia's. Yours goes in your press kit.

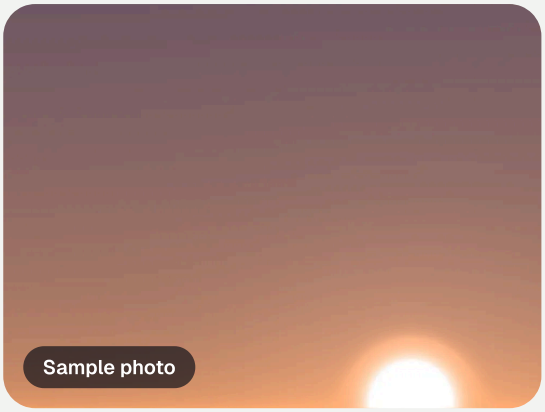

Island rhythm, city dance floor.

Isla Vela is a sample artist, invented to show what an Ezencia press kit looks like. Everything you read here is fictional.

In the sample story, she starts as a percussionist in salsa bands and moves to the booth in 2014. Since then she has mixed **afro house, disco and latin house**, bringing the congas into the booth when the night calls for it.

She also hosts: in three languages, she keeps a festival crowd with her between acts.

First I listen to the room. Then I decide the rhythm.
